PROJECTS

Robofriends

It is an app that fetches robots from an API and renders it on the screen. I made use of REST API and React Js in building the project. It can also search for robots using their names

AgroEase project

It is an agricultural marketing platform where farmers and buyers can do business with seamless user experience.

Eliteblog

It is an online news platform that helps user get information about the recent happening in his/her location. It is built with HTML5, CSS3 and JavaScript

TodoList

The app helps to add, edit and delete task planned to do. It can also check and uncheck if a task is completed or not

Product Landing Page

Built a product landing page where customers can view company profile and product using JavaScript, Bootstrap 3 &4, CSS3, and HTML5

EDUCATION AND TRAINING

Bachelor of Engineering

University of Nigeria, Nsukka

Field(s) of study: Agricultural and Bioresources Engineering
Final grade: First Class Honour(**2nd Best graduating student**)

DIGITAL SKILLS

React Js | JavaScript | HTML5/CSS3 | Google Digital Training - Digital Marketing Fundamentals | Online content creation and editing tools | Web-development front-end (Bootstrap, HTML, JavaScript)

SOFT SKILLS

Time management | Adaptability | Problem solving | Teamwork | Creativity | Leadership | Interpersonal skills, Critical thinking | Effective communication
